

Introduction to Course Pack Components – Elementary

Educator Guide

- 1** The first component listed in the navigation bar is the **Educator Guide**. It is hidden from students (indicated by the icon of the eye with a diagonal line through it.)
- 2** Within the Educator Guide, you will find overviews of each unit. There are also summaries of each learning activity.
- 3** The components included in the **Educator Guide** are listed in order as follows:
When you click on these titles, the content will load in the center of the screen.
 - Learning in Kindergarten
 - Overall Expectations
 - Noticing and Naming the Learning using Learning Goals and Success Criteria
 - Assessment in Kindergarten
 - Equity and Inclusion
 - Land Acknowledgements
 - Universal Design for Learning (UDL)
 - How to Engage the English Language Learner
 - Tools within Ontario's VLE
 - Technical Help
 - Release Notes
- 4** Learning Activity Summaries can be found within the **Educator Guide** component. They are specific to each course and highlight student learning including interactives, assessment opportunities as well as links to the **VLE tools**.
- 5** **Tools Within Ontario's VLE** has options such as dropboxes, discussions, quizzes, or surveys that can all be added by accessing this area. The course content itself can be edited using the WYSIWYG also known as 'What you see is what you get' editor built right into the VLE.

Welcome Students

1 The second component listed in the navigation bar is **Welcome Students**.

2 The components included in **Welcome Students** are listed in order as follows:

When you click on these titles, the content will load in the center of the screen.

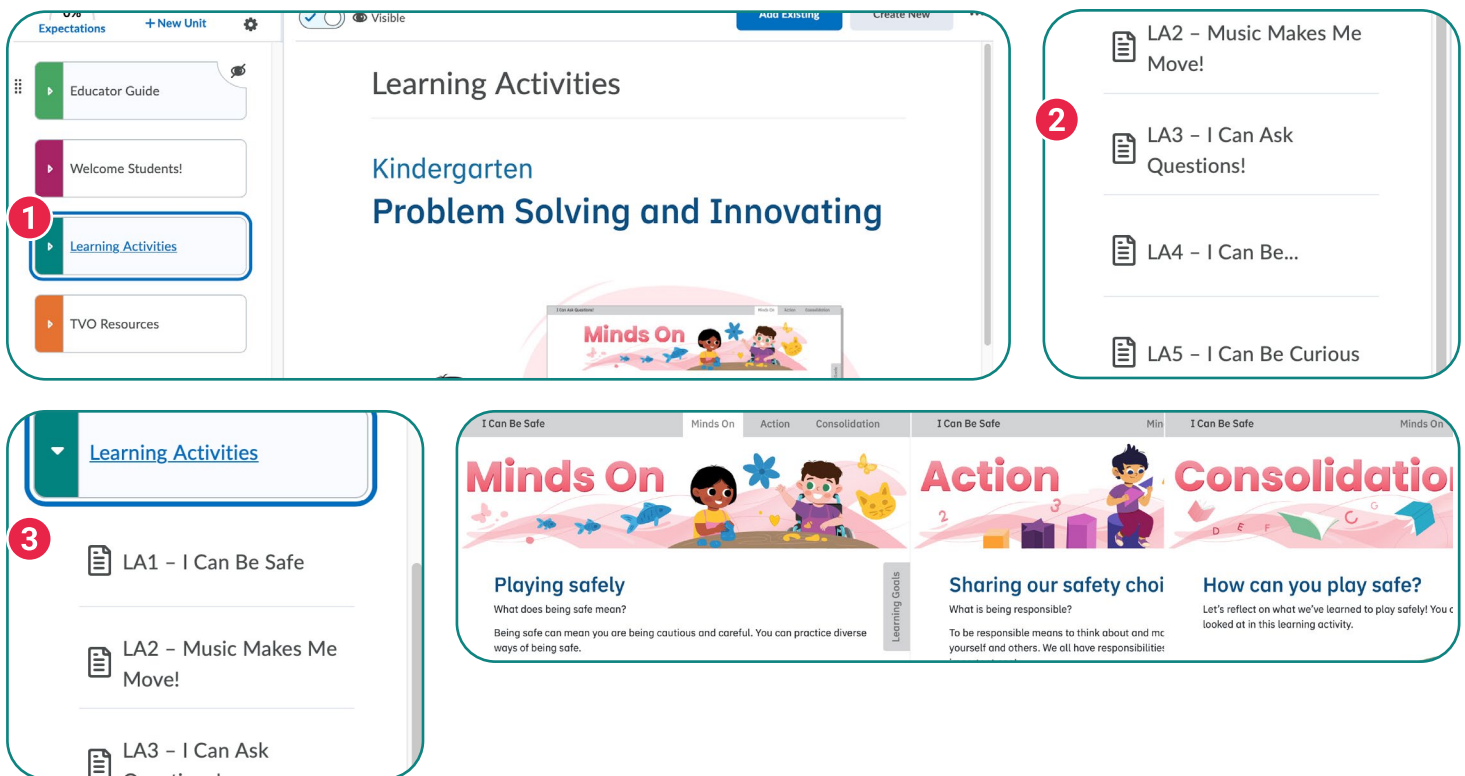

- **Tips for Today's Learner**, which provides support to those learning online.
- **What is a Learning Activity?**, which helps learners understand the various parts of the learning activity, how they are organized, and how to navigate through each section.

Learning Activities

- 1 The third component listed in the navigation bar is **Learning Activities**.
- 2 There are up to 24 **Learning Activities** to support you in your instruction.
- 3 Click on the Learning Activity title, as in this example, LA1 – **I Can Be safe**, to learn how each lesson is broken into various parts.
- 4 Each lesson is broken into three parts:
 - Minds On
 - Action
 - Consolidation

When you click on these titles, the content will load in the center of the screen. There are various activities on these pages that a student will be able to navigate.

- 5 Click on Learning Goals to find the Learning goals and Success criteria for the lesson.

TVO Resources

1 The fourth and final component listed in the navigation bar is **TVO Resources**.

2 **TVO Resources** include:

When you click on these titles, the content will load in the center of the screen. They will provide you with links and information about each resource.

- TVOkids
- TVO Mathify
- TVO mPower

The image shows a navigation interface for TVO Resources. On the left, a sidebar contains four menu items: 'Educator Guide', 'Welcome Students!', 'Learning Activities', and 'TVO Resources'. The 'TVO Resources' item is highlighted with a red circle containing the number '1'. The main content area is titled 'TVO Resources' and features three devices (a desktop monitor, a tablet, and a laptop) displaying various resource pages. Below the devices are the logos for 'tvo Mathify', 'tvokids', and 'tvo mPower'. On the right, a secondary sidebar shows the 'TVO Resources' menu expanded, with a red circle containing the number '2' next to the title. Below the title are three items: 'TVOkids', 'TVO Mathify', and 'TVO mPower', each accompanied by a document icon.
